

## HEALTH, SAFETY & ENVIRONMENT POLICY STATEMENT

All activities conducted by Corrosion & Environmental Services Limited (CESL) are planned and conducted in accordance with the objectives defined in our Health, Safety, and Environment Policy Statement. We have taken the requirements of the Occupational Safety & Health Act 2004 (as amended 2006) of Trinidad and Tobago as well as those of ISO 14001:2004 and OHSAS 18001:2007 to derive this document.

This document has been approved by the highest level functionary of CESL and represents the commitment of all employees. It is available to all employees, contractors, stakeholders and members of the public via the following media:

- o Posting at the Company Offices
- o Copies distributed to employees and delivered to all contractors & contract holders
- o Directly from Company Employees
- o Available on our Company Brochure\* (By March 2010)

The expectation aligned with this Policy is that the activities of CESL will be in accordance with these guidelines and all activities with associated organizations must also be in this arrangement.

This Policy will be reviewed in accordance with the HSE Management System Review Procedure (Tracking Number CESL-HSE-7), and any changes will be updated accordingly in accordance with the HSE Management System Document Control Procedure (Tracking Number CESL-6).

All parties aforementioned in this document will be informed of any changes.

OCCUPATIONAL HEALTH, SAFETY & ENVIRONMENTAL  
POLICY STATEMENT

CORROSION & ENVIRONMENTAL SERVICES LIMITED (CESL) is a diverse, competent and multi faceted Company primarily involved in Corrosion Control, Structural Rehabilitation and Construction Services. The Management of CESL is firmly committed to the achievement and maintenance of a safe, healthy, injury free and environmentally sound business, for all employees and stakeholders. We pride ourselves as being leaders in Occupational Health, Safety and Environment (HSE) Management practitioners by committing to the following codes of practice:

1. Full compliance with ALL relevant HSE Legislation of Trinidad and Tobago and applicable industry practice, as they govern the sound management of our operations, facilities and personnel.
2. Identification and management of all HSE hazards and emergency situations associated with all operations to ensure sustainability safe, injury free and environmentally sound work activities.
3. Establishment and monitoring HSE performance targets for continual improvement.
4. Ensuring that all employees recognize their HSE responsibilities and are aware of the accountability for the maintenance of an HSE-conscious working environment at all times.
5. Provision of a fully trained, informed and competent workforce to conduct all jobs with utmost professionalism that not only meet, but exceed the needs of our clientele.
6. Conducting full reviews of the HSE management system to ensure continual improvement of risk reduction strategies as well as the sustainable development of the operating environment.
7. Maintenance of open communication with all employees and stakeholders to ensure that a nurturing and trusting relationship is established and upheld.
8. Implementation and maintenance of pollution, incident and accident prevention strategies.

As Director, I will ensure that all leadership and commitment to sound HSE Management is reflected in all activities and services of CESL in the fulfillment of these goals.
